Subject: PASADENA VILLAGE STEPS FOR COVID-19 PREVENTION
From: Peggy Buchanan

With a great sense of responsibility we are taking steps to protect the health of our Pasadena Village, while recognizing that now, we need each other more than ever.

Out of concern for everyone's wellbeing all Village events are cancelled through the end of March. Transportation requests will be limited for essential purposes during this time. We discourage all in-person gatherings but encourage communicating with each other often. We will re-evaluate plans for April near the end of this month and update you.

Please stay connected via other means such as:

- *Conference calls (the Village office is researching and will send instructions)*
- *Buddy systems*
- *Call one another to chat*
- *Online games and discussions*
- *Posting an article via e mail and inviting responses*

We ask all committee chairs and facilitators of all of our other affinity groups, discussion groups, neighborhood groups, women & men's groups, caregiver group, walking groups, etc., to work on ways to meet by conference calls or online discussions. Please contact people in your group(s) and find alternative ways to remain engaged. If you need phone numbers, please feel free to call our office.

The most reliable and up-to-date website for information about the Coronavirus (COVID-19) is the federal Centers for Disease Control website:

<https://www.cdc.gov/coronavirus/2019-ncov/summary.html>

Our Pasadena Village is precious to all of us. While this extraordinary situation exists, we value our friendships and know each of us here to help. When this passes, we will celebrate coming together again.

*With care,
Shizzie & Peggy*
